# Validate the Training outline

- Review the content of the Training modules assigned to your group
- Discuss what is essential to cover in the modules
- Based on your discussion, move the sticky notes with the training content:
  - MUST:** the topic *must* be included in the module
  - SHOULD:** the topic *should* be included in the module
  - COULD:** the topic could be included in the module
- Use the extra sticky notes to add any additional topics that must-should-could be included in the modules

# Build an ABA CCCM Toolkit

- Reflect and discuss:
  - What operational tools should be shared?
  - Are there operational tools you/your agency can share to contribute to the training package development?
- Add your ideas in the flipchart
- Leave us your contact details if you want to contribute to building the the ABA CCCM toolkit!

# ABA CCCM Training Package: Way Forward

- Review of the training package by a "Steering Committee"
- Address the comments and update the package
