

Population Movement Monitoring Flash-Update

17 June - 24 June, 2025 / Update 19

Estimated Number of Displaced Individuals¹

684,240

Estimated Number of Displaced Individuals² from (15 May - 24 June)

246,642

The humanitarian situation in Gaza continues to deteriorate as displacement rose since the events of March 18, 2025. The escalation, combined with displacement orders have forced residents to flee their homes, seeking refuge in overcrowded displacement sites.

This update outlines the scale, patterns, and impact of displacement in Gaza, offering insights into the ongoing humanitarian situation. Data was collected from eyewitness accounts, social media posts, and available datasets from Site Management Cluster (SMC) partners on the ground. The information was cross-referenced and analyzed to establish displacement patterns and the impact on local infrastructure.

According to OCHA, 82% of Gaza is currently either within the militarized zones or under displacement orders, which has increased displacement. Between the 17th and the 24th of June, an estimated 4,100 individuals were displaced. This brings the estimated number of individuals displaced between the 15th of May and the 24th of June to 107,433 in the three southern governorates and 139,209 in the two northern governorates, based on reported movements, including those following direct targeting of displacement sites.
