Population Movement Monitoring Flash-Update

📕 01 July - 08 July, 2025 / Update 21

Estimated Number of Displaced Individuals¹

725,693

Estimated Number of Displaced Individuals² from (15 May - 08 July) 288,095

The humanitarian situation in Gaza continues to deteriorate as displacement rose since the events of March 18, 2025. The escalation, combined with displacement orders have forced residents to flee their homes, seeking refuge in overcrowded displacement sites.

This update outlines the scale, patterns, and impact of displacement in Gaza, offering insights into the ongoing humanitarian situation. Data was collected from eyewitness accounts, social media posts, and available datasets from Site Management Cluster (SMC) partners on the ground. The information was cross-referenced and analyzed to establish displacement patterns and the impact on local infrastructure.

According to OCHA, 86% of Gaza is currently either within militarized areas or under displacement orders, which has increased displacement. Based on reported movements following the direct targeting of displacement sites and recent displacement orders, between the 1st and the 8th of July, an estimated 11,681 individuals were displaced. This brings the number of displaced individuals since the escalation of military activity on the 15th of May to 116,962 displaced individuals in the southern 3 governorates, and 171,133 displaced individuals in the northern 2 governorates.

SMC PARTNERS, SOCIAL MEDIA MONITORING

orders. This figure may include individuals who have been displaced multiple times during the reporting period, and therefore may be counted more than once.

² The number of displaced individuals recorded in this report have been recorded from 15 May 2025 to 13:00pm 08 July
