## DISPLACEMENT NUMBERS

During Week July 22-29<sup>th</sup>

5,235

Since March 18<sup>th</sup>

767,828

## OVERVIEW OF DISPLACEMENT MOVEMENTS

- As of **July 29<sup>th</sup>**, 2.1M people currently live in Gaza and **89%** of the territory is currently either within militarized areas or under displacement orders (OCHA).
- An estimated **5,235** new displacements were reported during the week of **July 22-29**, with over **80%** of the recorded movements originating from or occurring within Khan Yunis.
- This brings the number of displacements since the escalation of military activity on **May 15<sup>th</sup>** to **330,230**; **148,790** in the southern 3 governorates, and **181,440** in the northern 2 governorates.
- Since the end of the ceasefire on **March 18<sup>th</sup>**, **767,828** displacements have been recorded.

## METHODOLOGY

- Data was collected from eyewitness accounts, social media posts, and available datasets from Site Management Cluster (SMC) partners on the ground. The information was cross-referenced and analyzed to establish displacement patterns.
- The numbers refer to displacements, and not individuals. People displace multiple times, therefore what is reported is flow figures rather than stock figures.
- Access constraints continue to pose significant challenges, impacting data quality. As a result, the majority of movements are recorded with either unknown origins or destinations.
