

SITE MONITORING OVERVIEW

BANADIR STATE

MONTH: MARCH 2025

The CCCM Cluster's Site/Service Monitoring provides a comprehensive monthly overview of services available in IDP sites managed by partners across Somalia. This product compiles data on site conditions, service provision, and gaps, offering a detailed snapshot of the humanitarian situation in displacement sites. It serves as a key resource for coordination, enabling partners and stakeholders to assess service coverage and prioritize interventions based on identified needs.

INDEX (Thresholds):

**\*Site Severity Score:** A higher percentage indicates a greater multisectoral gap, calculated as the average of red indicator percentages across all clusters

Whenever a camp name contains two letters followed by a number, it indicates a Catchment Area. It is always written in the format "CA1"
