## DISPLACEMENT NUMBERS

Since 14 Aug

76,159

Since 18 March

856,517

## OVERVIEW OF DISPLACEMENT MOVEMENTS

- As of 31 August, an estimated 2.1 million people live in Gaza, with **86.5%** of the territory either within militarized areas or under displacement orders. (OCHA)
- During the reporting period, military operations have continued to intensify in Gaza City, the origin of **83%** of recorded displacement movements, prompting people to flee the eastern parts of the city, moving primarily to the West Gaza City and Southwards to Deir Al Balah and Khan Younis.
- Between 27-31 August, **23,319** displacement movements were recorded. Since 14 August, an estimated **29,680** movements were observed crossing from North to South.

## METHODOLOGY

- Data was collected from eyewitness accounts, social media posts, and available datasets from Site Management Cluster (SMC) partners on the ground. The information was cross-referenced and analyzed to establish displacement patterns.
- The numbers refer to displacements, and not individuals. People displace multiple times, therefore what is reported is flow figures rather than stock figures.
- Access constraints continue to pose significant challenges, impacting data quality. As a result, the majority of movements are recorded with either unknown origins or destinations.
