## SOURCES

SMC PARTNERS, SOCIAL MEDIA MONITORING

## DISPLACEMENT NUMBERS

Between 20 – 24 Aug

**12,810**

Since 18 March

**809,149**

## OVERVIEW OF DISPLACEMENT MOVEMENTS

- As of 24 August, an estimated 2.1 million people live in Gaza, with **86.3%** of the territory either within militarized areas or under displacement orders. (OCHA)
- During the reporting period, military operations continued to intensify in North Gaza and Gaza City. Intensified military operations in Gaza City, home to over 800,000 people, prompted a new wave of displacement from Gaza City, the origin of **65%** of recorded movements.
- Between 20 and 24 August, an estimated **12,810** new displacement movements were recorded. Among the recorded movements, **4,860** movements were primarily to the south towards Deir al Balah and Khan Yunis, while **7,950** movements were to the West of Gaza City. This brings the number of recorded displacement movements since the end of the ceasefire on 18 March to **809,149**.

## METHODOLOGY

- Data was collected from eyewitness accounts, social media posts, and available datasets from Site Management Cluster (SMC) partners on the ground. The information was cross-referenced and analyzed to establish displacement patterns.
- The numbers refer to displacements, and not individuals. People displace multiple times, therefore what is reported is flow figures rather than stock figures.
- Access constraints continue to pose significant challenges, impacting data quality. As a result, the majority of movements are recorded with either unknown origins or destinations.
